

The Best Wheat and Mixed Farming Lands in Alberta

VOL III NO. 6

CHINOOK, ALBERTA, JUNE 1, 1916

Subscription: \$1.00 per year, in advance. Single Copy, 5 cents

Chinook's Sports Day, June 16

Breezelets

The editor of the Hanna Herald says: "He has heard of some men driving their cars by a shot or two of good Scotch whiskey."

With gasoline at 50c to 60c a gallon this may prove valuable information to some autoists, and at the same time a profitable sale for some of the surplus "good Scotch" after the 30th of June.

Particularly as gasoline has a tendency to go "up" and good Scotch to go "down."

If a "shot or two of good Scotch whiskey" will run an auto, it ought to be a good lubricator for Mac's new gasoline engine.

England enters the daylight saving system, and London turns the clock on sixty minutes.

That makes it sixty minutes nearer the great drive.

You can say this for the survivors of Verdun. They never will be afraid of a thunder and lightning storm as long as they live.

The Austrians seem to be trying their best to get beyond the Alps, where lies Italy—

And find out what it is lying about.

Lambs are scarce and going up in price.

But the supply will more than equal the demand when the next oil boom comes—or some other quick-rich fool scheme is launched by the wiley speculator.

There are plenty of Bucks left to go around for some time.

No truth now that the Austrians didn't have a look-in with the Italians. They took a peak.

Having done what he could to protect the males and females from submarines, Pres. Wilson is now doing what he can to protect the mails from the English.

Gen. Townsend must hear about that juncture which the Russian cavalry made with mingled feelings. If it had happened two months before.

Old Sol is altogether too wary of wearing out his welcome, this spring.

Coming of Prohibition

WILL BRING SOME CHANGES

In view of the fact that the present license system goes out of existence in Alberta at the end of the present month, and that prohibition or liquor act will go into effect in this province on July 1st, 1916, it may perhaps be well to refresh our memories regarding the new law. As will be seen the druggists, as one of the mediums through which spirituous liquors are to be obtained, under certain conditions, are under very heavy penalties for any infringement of the act.

In the first place, liquor for domestic consumption must be brought in from outside the province, as none can be had in this. Although there is nothing in the act limiting the quantity which any one person can order from outside points, yet there are the household restrictions, which says no householder can have more than one quart of spirits and two gallons (one case) of beer or other malt liquor.

This cannot be bought from any of the professional men who are permitted to sell liquor for medicinal, mechanical, sacramental or scientific purposes. The druggist may have a quantity not exceeding five gallons at one time, the dentist not in excess of one pint, the doctor not exceeding two quarts, the veterinary surgeon not exceeding one gallon. These can only be disbursed on medical certificates. All these professional men must make monthly reports of the quantities they have and have disposed of. They must also report their detailed permits. If these reports are not right, or are not made the neglectful doctor, dentist, vet. or druggist is liable to a fine of \$50.00 for a first offence, \$200.00 for a second and \$500.00 for a third.

The liquor act give the lieutenant-governor in council the power to appoint government vendors to sell liquor to such professional men as are permitted to buy or ordered sold.

The man who consumes liquor, beer or spirits, in his home, will be put to the necessity of sending out of Alberta for it, and probably there will be some inconvenience experienced by doctors who prescribe liquor for patients until matters assume a settled basis. A druggist who fills medical certificates for liquors and who has only five gallons in stock, will not be (Continued on page 4)

An Important Decision

OF GREAT INTEREST TO FARMERS

"There can be no reason why a farmer in straitened circumstances, who cannot afford to buy the necessary seed and supply the necessary animals, implements and labor to cultivate and crop his farm, should not make an agreement with a third person whereby the latter, for a money consideration, should have a specific interest in the farmer's crop, or why that interest should be taken from him by an execution creditor of the farm. If bona fide, it no doubt would be financially advantageous to the farmer and therefore ultimately to his creditors and, as tending to the increase of agriculture, in accordance with the public policy. The law undoubtedly protects the third person making the advance in such a case.

This was the language used by his lordship, Mr. Justice Beck, of the appellate division of the supreme court of Alberta, in dismissing the appeal of the International Harvester company et al. from the decision of his lordship, Mr. Justice Stewart, in the case of Jacobson et al. vs. The case was one of far-reaching interest to farmers, especially those who happen not to be in good circumstances.

The action arose out of a seizure made by the appellant of the crop grown by Louis Jacobson on his farm near Rumsey during the season of 1915. Previous to this an agreement had been made by Jacobson with David Weitzer that, in consideration of the latter loaning the farmer \$400 with which to put in his crop. Weitzer was to receive one-third of the crop. The agreement was entered into in April, 1915, and Jacobson put about 100 acres into crop.

There were a number of execution creditors. The execution of the International Harvester company was issued and placed in the sheriff's hands on August 1, 1912, that of the Bank of Nova Scotia on April 6, 1914. Acting by virtue of the executions, the entire crop of Jacobson was seized on August 15th, 1915, no attention was paid to the interest claimed by Weitzer and the action was started. It was tried before his lordship Mr. Justice Stuart. The trial judge ordered that the one-third interest be restored to Weitzer.

June, 1916

WILL BE A MEMORABLE MONTH.

This month of June, A.D. 1916, promises to go down into history as a month of great changes. June heretofore has been noted for June brides and June roses. But June, 1916, will be a hummer in history by other momentous events. Among these may be mentioned:

1. During the present month—the day or the hour is not yet known—it is said that at last the stage is all set for the "Great Drive" of the Allies on the western front, and probably on all the fronts of the war's stage. The great drive that has been coming for the past twelve months.

2. At the end of June the present license system of open bars goes out of existence in Alberta, and the prohibition or liquor act goes into effect after midnight June 30th.

3. The present month may see the inauguration of running autos by a "shot or two of good Scotch whiskey," which will revolutionize the present motive power, and knock the "government's two-per-cent." into smithereens.

4. A smashing naval battle is scheduled to take place during the month—off the banks of Sounding Creek. It is expected that Uncle Sam may send that snorter of an aeroplane that has been on active service in spying out the location of Villa's hiding place, but so far that Villa-n hasn't shown up. This aeroplane will act as guardian at the entrance of the creek to stop those blooming Britishers from interfering with Uncle Sam's mails.

5. Chinook's sports day takes place on June the 16th. This promises to be a record breaker, and will certainly be an historical event in the annals of the town's history, for future generations to cogitate about and tell the kiddies of the great doings that made Chinook famous.

More to follow.

John Bull and Uncle Sam might be able to maintain world peace by close co-operation, but they couldn't hope to become popular as international policemen.

Consolidated School Board

IMPORTANT MEETING

The board of trustees of the Chinook consolidated school district met in Chinook on Saturday evening, May 27th.

Present: Messrs. Deman, Maris Young and Bennett.

Minutes read and adopted. Correspondence read.

Young, that communication of F. Deman, re having section 23-29-8 4 withdrawn from consolidated district, be tabled for the present.

Tenders for the position of Sec. Treas. of district were now opened and read.

Bennett, that Mr. Proudfoot be accepted.

Young, that the board of trustees advertise for sketches of drafts of four-roomed brick-veneer school buildings, a building that may be added to later to change into one with 6 or 8 rooms—building to face south, to be in accordance with government requirements re lighting, heating, ventilation, amount of air space per pupil, etc., architects submitting sketches to state price of full plans and specifications, and probable cost of building.

Young, that the Dept. of Education be asked to furnish the Board with any plans of buildings they may have, and that they do what they can to put the Board in touch with different ones throughout the province and elsewhere from whom this information re building may be obtained.

Bennett, whereas, this board of trustees of Chinook consolidated school district, No. 16, of the Province of Alberta, deem it advisable to build a modern, four-roomed, brick veneered school building, in the village of Chinook and to purchase conveyances for said district.

Re it hereby resolved, that this board of trustees borrow by debenture a sum of money not exceeding \$15,000, said debentures to bear interest at a rate not exceeding 7 per cent. per annum and to run for a period of twenty years.

Maris, that Bank be authorized to accept signatures of Mr. I. W. Deman as chairman and of Mr. Lorne Proudfoot as sec. treasurer of the Chinook Consolidated School District.

Maris, that Chairman and the Secretary be authorized to borrow from the Union Bank, Chinook, (Continued on page 8)

Dobson Elevator Burnt

CAUSE YET UNKNOWN

Fire losses have been hitting some of the western elevator companies pretty hard recently. The latest sufferers are the Planet Elevator Company of Saskatoon, whose house at Dobson, a flag station a few miles west of Chinook, was destroyed Monday night with its contents of about 30,000 bushels of grain. Sunday night the elevator belonging to the North Star Elevator company of Winnipeg, located at Kelsey, on the C.N.R., was destroyed, and about 27,000 bushels of grain lost. Then came the news of the fire at Vancouver, by which the Alberta Pacific were the losers.

Oh, No! It Wasn't Him

ONLY DOING IT FOR HIS FRIEND

A certain local young man—that is, pretty certain—went into a local garage a few days ago to enquire about the hire of an auto for wedding purposes. "You see I want to find out for a friend," he informed the man in charge. "he is a bit bashful, so sent me."

So everything was talked over and the price fixed and such details arranged for "the friend." Then as the man started to leave a neighbor, who was present grinningly remarked, "Well, John, don't we get an invitation, too?"

John (that may or may not be his name) turned red in his face, as he does occasionally nowadays and went out trying to appear as unconscious as any man who is doing a good turn for a friend of his who is about to be married.

A correspondent sends us the following for publication:

"Youngstowers must have some old heads on them, for they have the roads all their own way in their municipality. May be Chinookers will learn a lesson and get their innings next year."

Chinook Women's Institute will meet on Saturday afternoon of this week, June 3rd, in the hall. Come early in order to sew for the Red Cross.

Just because a fellow is always falling in love, he cannot blame it on the law of gravitation.

Telephone for Every 15 Persons in Canada

1,395 Companies Have Earned Over \$400,000

According to the annual blue book of the railway department giving telephone and express statistics, there is now one telephone for every 15.1 persons in Canada, and one increase in the use of the telephone has been steady during the past few months, and war conditions do not seem to have interrupted the progress. The number of telephones reported as being in use in 1915 was 23,000, an increase of 11,946 over 1914. The principal growth was in rural districts. The net earnings of the telephone companies in Canada totalled \$4,744,957. The net earnings were \$50,091 better than the result of 1914. The total capitalization of Canadian telephone companies now amounts to \$74,285,000.

Express earnings for 1915 show some shrinkage, owing to war conditions. Gross earnings for 1915 amounted to \$1,131,177, as compared with \$1,214,541 in 1914. Net earnings totalled only \$88,668, as compared with \$234,453 in 1914. The smallest net of the net earnings, however, is not so significant as it might be supposed, when it is considered that the express companies had last year to railways and other carrying agencies for express privileges, a total amount of \$8,810,224. This latter amount went in reality to the transportation companies which own the stock of the express companies.

Whether the corn be old or new growth, it must yield to Houlston's Corn Cure, the simplest and best cure offered to the public.

"Flinch's home seems badly neglected."

"Well, his wife is interested in prison reform, better roads, pure politics and clean plays."

EXPERIMENTS

Teach Things of Value

Where one has never made the experience of leaving off tea or coffee and drinking Postum, it is still easy to learn something about it by reading the experiences of others.

Drinking Postum is a pleasant way out of tea or coffee troubles. A man writes:

"My wife was a victim of nervousness, weak stomach and loss of appetite for years; and although we resorted to numerous medical remedies, none of which was a change from coffee to tea, it was all to no purpose."

(Both tea and coffee are injurious to many persons, because they contain the subtle poisonous drug, caffeine.)

"We knew coffee was causing the trouble but could not find anything to take its place until we tried Postum. Within two weeks after she quit coffee and began using Postum, it is still easy to learn something about it by reading the experiences of others."

France to Make Greater Efforts in Munitions

M. Thomas Says Great as These at Present, They Are Insufficient

A warning that France must make still greater efforts was given by Albert Thomas, the munitions minister, in a speech at the Chamber of Deputies.

M. Thomas praised the efforts of the war and continued:

"But these efforts, great as they are, are not sufficient. The enemy had a considerable advantage over us which we have perhaps not yet regained. Certainly, however, thanks to you, are today well provided with munitions, but you know how the enemy, with his methodical and disciplined organization, has constantly increased his strength."

"It is your task to continue to surpass our production and with the help of our allies to equal the effort of a menacing, sleepless enemy."

M. Thomas also praised the industrial organizations which before the war were at strife with the state, for "the present union of efforts and organization which the most audacious among us would never have dreamed was possible."

Ask for Minard's and take no other.

One day Pat appeared on the street a huge tear in his coat sleeve. "Look here, Pat," protested a friend, "why don't you get that hole mended?"

"Once I do," said Pat, "a hole may be the result of an accident, but a patch is a sure sign of poverty."

She Did Not Heed The Danger Signals

BUT DODD'S KIDNEY PILLS CURED HER DIABETES

Mrs. McDonald Might Have Saved Herself Months of Pain, Sleeplessness and Anxiety by Using Dodd's Kidney Pills Earlier.

Grand Narrows, Victoria Co., C.B. (Special).—That Dodd's Kidney Pills will cure kidney disease in its worst form is evidenced by the case of Mrs. Frederick McDonald, an estimable resident of this place. Mrs. McDonald suffered from diabetes for two years, and found her first relief in Dodd's Kidney Pills.

"I am sure I would be in my grave today but for Dodd's Kidney Pills," Mrs. McDonald said. "The doctor attended me for five months for diabetes, but I started when I stopped taking his medicine than when I started. I could not get a wink of sleep. As soon as I started taking Dodd's Kidney Pills I fell in a solid sleep for one hour, and soon I got so that I could sleep every night."

"Dodd's Kidney Pills have done so much for me that I feel like recommending them to all who are afflicted with kidney trouble—danger signals that no one can afford to neglect. Had I not heeded them and taken Dodd's Kidney Pills she would have saved herself months of pain and anxiety."

What "Community Farming" Does

The value of community effort for the benefit of dairy cattle and for the introduction of the best methods of dairy practice, says Horst's community farm, was demonstrated to Wisconsin dairymen by the county of Jefferson, and more especially the community farm of Lake Mills.

A small township of Lake Mills, from sales of high-grade Holstein cattle, amounting in 1905 to over \$75,000, paid largely by means of other sales and outside the county, the comparatively small township of Lake Mills has become a prominent Holstein community.

Many growers have reason to bless Mother Givers' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Cut Russ. Meat Bill

The agricultural committee of the House has approved the bill restricting the consumption of meat. It has recommended that the slaughter of cattle be prohibited on Thursdays and the sale of meat in restaurants on Mondays, Wednesdays and Fridays.

"The middle class housewife in peace, as in war, our only real economist, finds the appalling waste one of the nightmares of the war. Organize a committee of British housewives to check this waste and it will be checked, but not before," Times.

They Cleanse While They Cure—The vegetable compounds of which Paracoe's Vegetable Pills are composed, mainly dandelion and mandarin, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. These pills are the best remedy for indigestion available today. A trial of them will establish the truth of this assertion and will demonstrate to you the value of this medicine.

The Aunt With Zeppelins

"It's not at all jam staying with Aunt Mary now she's got Zeppelins in the house. She likes to sit up half the night with her? Every evening I put her to bed with Persia and she goes to sleep. The Persia and the milk packs a bag with easily portable cushions."—Gentlewoman.

"There is an end of the waiting of armies as of the sleep of nature, and the war on all sides is as quick with energy as the earth with sap."—Observer.

Keep Minard's Liniment in the house.

Griggs—How does your brother take married life?

Briggs—According to directions, I believe.

History of Advertising

Fifty years Ago It Was Very Much in the Elementary Stage

Advertising in various forms is extremely old. Mention of this art is to be found even in the Old Testament.

Under the Copts, the walls of the Coliseum, used to be plastered with notices from business men in Rome; and in ancient Greece, the same practice was followed in the temple, parchment scrolls of complaints and personal afflictions of the people, which in turn led to numerous interruptions on the state, trade and business, thus calling attention to the wares of the complainants.

The obelisks of the Hittites served a turn for the Egyptians and St. Paul's Cathedral in London was so covered with trade notices at one time that the constabulary was invoked to tear them down.

All this demonstrated the antiquity of advertising, yet it is only in recent years that its magnificent proportions were attained.

The first regular newspaper to publish advertisements was the London Weekly News in 1822. The word "advertiser" first appeared in a heading in the London Gazette in 1666. In 1730 appeared the first "personal" in a London newspaper, and from its wording it might have been clipped from the columns of the New York Herald.

The first regularly printed newspaper in America was the Boston News Letter which made its appearance in 1703 and enjoyed a circulation of only 300 after 40 years.

The New York Gazette first published advertisements in 1742 and in one year its total was only four. Not until 1820 did it contain one full column, although the New York Herald, the first American advertiser, means dated with real estate and runaway dogs and horses.

The earliest American advertiser means dated with real estate and runaway dogs and horses. The earliest American advertiser means dated with real estate and runaway dogs and horses.

Patent medicine vendors followed, and then theatrical managers and book publishers.

Except slave owners, we have these advertisers still with us, daily purchasers of beer, and more were space.

It is estimated that the total volume of retail advertising in the United States in 1915 was \$904,745,000. This represents for every man, woman and child in its forty-six millions an expenditure of \$17.29 for the year. No fewer than 39,960,000 barrels of beer were consumed in twelve months.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Lawrence M. Brown, Walton, N.S. writes: "I have used Baby's Own Tablets for the past ten years and believe there is nothing to equal them for little ones. They instantly banish constipation and teething troubles and unlike other medicines I have used they are pleasant to take and do not gripe the baby."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

A Cheaper Motor Fuel

New Method by Which It is Claimed Cost of Fuel is Greatly Reduced

Monopolies by holding up prices sometimes defeat their own object when the cost to the consumer reaches a point where invention waits on necessity. This appears to be the case in regard to gasoline. Owing to the demands of the belligerents and the great advance in price, attempts are being made in various parts of Europe to find a cheaper substitute.

An Irish motor car firm claims to have discovered a method by which the cost of fuel is reduced by eight cents a gallon. In a public demonstration the car was first run on two parts of gasoline for a distance of 2.7 miles per gallon. With a mixture consisting of two parts of the new fuel and one part gasoline the car consumed two parts over a distance of 6.7 miles, equal to 28.3 miles per gallon, and showing a saving of eighteen cents, the new fuel costing twenty-four cents per gallon. No carburetor adjustment was found necessary in making the experiment, the car running equally well on the cheaper as on the dearer fuel. It was found necessary, however, to supply the carburetor with a larger proportion of heated air when using the cheaper fuel. True gasoline is used when the engine is cold at starting, an auxiliary tank in the bonnet carrying the necessary supply for this purpose. Once the engine is started the mixed fuel is fed to the carburetor by means of a line-way tap. The engine, it is claimed, can be restarted on the cheaper mixture within an hour of stopping.—Toronto Globe.

There are a number of agricultural schools with farms attached in the province of Alberta. One of these farms, says Hon. Duncan Marshall, these farms have paid their way and have a surplus in the form of food and clothing. On one of these farms Mr. Marshall claims to have the best herd of Short-horns in America. The capital expenditure on the schools has been \$110,000, and there are more pupils in these schools today than there are in the four and a half million dollar agricultural college in Manitoba.

"Some men have no hearts," said the tramp. "I've been asked that fellow I am so dead broke that I have to sleep outdoors."

"Didn't that fetch him?" asked the other.

"No. He told me he was 'dole' the same thing, and had to pay the doctor for tellin' him to do it."

Dress Censor in Germany

Woman Taken to Police Station and Made to Wipe Off Her Rouge

What is characterized as a recrudescence of the spirit of the blue laws is observed in some German cities. In Munich the police have been authorized to act as censors of women's dresses and have been ordered to arrest all women who are dressed too conspicuously.

The first victim of these restrictions was a young woman who was taken to a police station and compelled, according to the newspaper reports, to wipe the powder and rouge from her face before being permitted to leave the station. In Leipzig prescriptions regarding boys and girls under eighteen years of age are being enforced. They are forbidden to enter restaurants and saloons except when accompanied by adults, and they may attend moving picture exhibitions only when special programs for juveniles are given, and they must keep of the streets after 10 o'clock at night.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Hall's Catarrh Cure has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Cure acts through the blood on the mucous surfaces, expelling the poison from the blood and healing the diseased portions.

After you have taken Hall's Catarrh Cure for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Cure at once and get rid of Catarrh. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

Bob—Why is it that firemen seem to lack enthusiasm?

Mal—Because they're always throwing cold water on everything.

Minard's Liniment Co., Limited, thought I would struggle with MINARD'S LINIMENT and it cured me at once. I am never without it now. Yours faithfully,

MRS. C. D. PRINCE, Nauviggauk, Oct. 21st.

The sum paid by Great Britain for liquor in 1915 was \$904,745,000. This represents for every man, woman and child in its forty-six millions an expenditure of \$17.29 for the year. No fewer than 39,960,000 barrels of beer were consumed in twelve months.

Canada's Opportunity in Eggs

Great Britain formerly imported immense quantities of eggs from Russia and from the Scandinavian countries. These sources of supply, it is estimated, have now been almost entirely cut off, and are seriously diminished. With facilities for shipping in a fresh condition Canada has an opportunity of meeting the deficiency. To accomplish this not only must the number of poultry breeders be multiplied, but increased watchfulness be manifested in tending the flocks and in the selection of stock. The average Canadian flock produces about 50 eggs per hen per year. The record is 314 eggs laid in one year by one hen, Lady Elegance of Delaware. Just as there are no more women cows, so there are breed-fowl, and it will pay you to find out about them. A good breed of poultry is no more costly to keep than a poor breed, and is infinitely more profitable. Having

the fowl, the next thing is to see that the eggs are kept fresh. Canning is a simple method of testing eggs. A candling apparatus and instructions for handling may be secured free from the federal department of agriculture.

Billis was stormed by night amid a blizzard and snow whirlwinds and captured without a shot being fired. The town has forty thousand inhabitants and is situated high up on the formidable range of the Armenian Taurus. Defended in admirable mountain positions by a couple of divisions of Turco-German troops, whose armament included Krupp guns of the latest pattern, the capital of a great province and gate to the rich plains of Mesopotamia, the German of Eden, was taken with coat steel between the hours of midnight and three in the morning.

WHEN IS A GOOD OIL NOT GOOD?

WHEN it's used in the wrong place. You cannot expect a heavy oil designed for use on a low-speed, high-power tractor to lubricate efficiently the finely adapted bearings of a high-speed, low-power tractor.

For every part of every machine there is one right oil—and it is worth money to you to find it.

The Imperial Oil Company makes a large number of farm lubricants—each one exactly suited for its particular purpose.

STANDARD GAS ENGINE OIL

Recommended by leading builders for all types of internal combustion engines, whether tractor or stationary, gasoline or kerosene. It keeps its body at high temperature, is practically free from carbon, and is absolutely uniform in quality.

PRAIRIE HARVESTER OIL

An excellent all-round lubricant for exposed bearings of harvesters and other farm machinery. Stays on the bearings, will not gum or corrode.

CAPITOL CYLINDER OIL

The most effective and economical lubricant for steam engine cylinders; proven superior in practical competition with other cylinder oils.

ELDORADO CASTOR OIL

A high-grade, thick-bodied oil for lubricating the loose bearings of farm machinery, sawmills and factory shafting.

THRESHER HARD OIL

Keeps the cool bearing cool. Does not depend on heat or friction to cause it to lubricate.

STEEL BARRELS—All our oils can be obtained in 28-gallon and 45 gallon steel barrels. These barrels save their cost by eliminating leakage. You use every drop you pay for. Clean and convenient.

If your lubricating problem gives you trouble, let us help you. Tell us the machine, the make, the part—and we will gladly give you the benefit of our experience in selecting the proper lubricants.

Torture of Sciatica Cured Quick!

"Nerviline" a Success Every Time

Stops the Pain Quick—Acts Like Magic—Is Harmless And Pleasant

Sciatica is the most severe pain man can suffer. The great sciatic nerve is deeply placed, and you can reach it only by a pain remedy, as penetrating and powerful as NERVILINE.

The glory of NERVILINE is in its strength—in its marvellous power of penetrating deeply in severe pains, such as sciatica and neuralgia. NERVILINE demonstrates its superiority over every other remedy.

Extraordinary pains, such as rheumatism or sciatica, can be overcome only by a remedy as extraordinary as NERVILINE.

Chinook Breezes

Little Gem announces a picnic for July 14th. Watch for big bills

Mr. E. Kitchen of Cayley was around town this week.

Bills are out for a dance to be held in Arm's hall, next Tuesday, June 6th. Dance at 9 p.m.

There will be R. C. Sunday school in the schoolhouse every Sunday at 2 p.m.

Mr. Joe Artho, having sold his farm, left t his week for Prince George, B.C., to see what the prospects are for taking up land.

Farmers in the local unions of the U.F.A., Chinook district, who wish to get their twine through the co-operative method, can do so by giving their sec-treas. an estimate of the amount required, so that the secretaries may decide on purchase of same at a meeting called to take place in Chinook on the 17th inst.

Coming of Prohibition

(Continued from page 1)

able to carry much beer or ale. He will need most of his permit for gin, whiskey, brandy and wine

The provincial government, it is said, intends to call on the professional associations affected and ask their co-operation. Members of the professions who are caught breaking the prohibition act will not only be fined or imprisoned, they will also be barred from membership in their professional associations. This automatically disqualifies them doing business in Alberta.

The grounds under which they can be disqualified in this manner are multitudinous. They can fail to send monthly reports, they can let liquor be consumed in their drug stores, they can have too much liquor in stock, they can accept forged certificates, and they are guilty under the act if the violations occur through clerks or other employees. The professional men must, therefore, be very careful, and the government expects to receive much assistance from the associations in enforcing the act.

Just what the hotels will do is conjectural. Some intend to alter their bars and make them into tea room and ice cream parlors, some intend to cut out the bar room and rent it as a business site. Many hotelmen are considering reducing the size of their retundas and providing extra rental space in order to endeavor to counteract the loss of the bar income. When July comes there will be many interesting developments.

It is stated that the breweries will continue to do business but will increase their output of temperance beer while they reduce the regular four per cent. stuff which is now sold in bars. The breweries will brew four per cent. for outside the province, and have the power to brew a beer for local consumption if the proof spirit does not exceed 24 per cent. Even this latter permission is doubtful at present, until the court of appeal settles a recent case heard at Lethbridge.

Chinook Agri. Hall

I hereby agree to pay on demand to the Chinook Agricultural Society the sum of five dollars for the purpose of building an Agricultural Hall provided one hundred others do the same.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS

THE sole sale of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Land Agency (but not Sub-Agency), on certain conditions.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$300 per acre.

Duties—Six months' residence in each of six years after entering homestead patent; also 30 acres extra cultivation. Pre-emption patent may be obtained at once as homestead patent, on certain conditions. A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$300 per acre. Duties—Must reside six months in each of three years, cultivate 30 acres and erect a house worth \$3000.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

Chinook Breezes

Mr. and Mrs. Whelan left on
Sunday morning for Calgary.

Who said "dry Alberta," after
the deluge of rain during the
past week or two?

Well, yes, it will be "dry" after
the 30th of this month, though,
good and hard.

R. C. service in the hall on
Saturday, June 17th, at 10 a.m.
Rev. Father Dargen.

Mr. and Mrs. A. H. Peck re-
turned home on Tuesday from a
week's trip to Viscount, Sask.

Mr. H. Kinch is attending the
annual conference of the Method-
ist Church at Lethbridge as lay
delegate from this district.

On account of next Sunday be-
ing conference Sunday, there will
be no service at Chinook or at
any of the appointments in this
circuit on that day.

Mr. H. C. Brigginslaw left on
Sunday for Calgary, and is now
in the hospital with a very near
touch of pneumonia. His many
friends wish him a speedy re-
covery.

W. A. Chase has decided to
locate at Youngstown, and
moved there the first of the week.
We expect W. A. will be back
again, one of these days. You
see! In the meantime we wish
him every success.

Mrs. J. W. Jones and family
leave Chinook this week for
Calgary, where they will reside.
We are sorry to lose this family
from Chinook, where they have
always been counted amongst
"Chinook's early settlers." Mr
Jones has served as councillor
and reeve of the R. M. of Sound-
ing Creek. Both Mr. and Mrs
Jones have always taken an active
part in all that appertained to the
welfare of the village and com-
munity. The removal of the
family has been made necessary
by Mr. Jones' change of route in
his inspection of elevators. We
wish them every prosperity and
happiness in their new home.

Consolidated School Board

(Continued from page 1)

such sums of money as may
be needed from time to time
to meet the expenditure of the
consolidated district, until such
time as the taxes for the year
may be collected, the total thus
borrowed not to exceed \$1000.

Young, that the Secretary from
time to time order the supplies
necessary for his work as Sec-
Treas. of the district.

Young, that Mr. Deman be
asked to arrange for a janitor for
the school until the end of the
present term.

Young, that Mr. Roberts be
paid \$2.00 per day for conveying
children of Popular S.D. to school
for balance of term.

Adjourned to meet again on
Saturday, June 10th, at 8 p.m.

Chinook Consolidated School District, No. 16

PUBLIC NOTICE is hereby given
that the Board of Trustees of
Chinook Consolidated School District
No. 16, of the Province of Alberta,
at a meeting on Saturday evening
May 27th, 1916, passed a By-Law
to borrow by debentures a sum of money
not exceeding Fifteen Thousand
Dollars, for the purpose of erecting
and equipping a School for the above
district and for purchasing convey-
ances for same, said debentures to
bear interest at a rate not exceeding
seven per cent. per annum and to run
for a period of twenty years.

Unless within fifteen days from
the date of this notice, a demand in
writing, signed by at least twenty
ratepayers of the said district, de-
manding a vote of the ratepayers for
and against the said By-Law, is
received by the Secretary or the
Chairman of the said district, the
Board of Trustees will proceed to
apply to the Minister of Education
for authority to borrow the said
amount, and on the conditions as
aforesaid.

I W. DEMAN, Chairman
LORNE PROUDFOOT, Sec.-Treas.
Dated at Chinook, this 31st day of
May, 1916.

School and Equipment for Sale

I HAVE been instructed by the
Board of Trustees of Popular S.
D. No. 2613, to offer for sale the fol-
lowing property of the said district:
The School Building, which is large
and well-built—has a neat cold-shed
behind—would be a good investment
for a neighboring district requiring a
school or a church; or with but little
extra cost it could be made into a
fine dwelling.

A Stable, large enough for 8 or 10
horses.

Two good Closets, with screened
approaches.

Fencing, 7 or 8 stout cement posts,
large and small iron gates, cedar
posts, and woven wire enough to
fence 2 acres, some of the wire never
been unrolled.

Teachers' desk, office chair, 2 other
chairs, about 15 desks for pupils,
large map case and maps, library
case and library, reading tablets, large
bell, blackboard, etc.

Waterbury Heating System, good
as new.

A Good School Organ, in use but
a short time.

Two screen doors—never been
used, and in fine condition.
Everything must be sold. Tenders
will be received for all or for any part
of this property. If tendering for
more than one part of it, state how
much you will pay for each part. In
this way all will have a fair chance.

Tenders must be in before June
30th. The highest nor any tender
not necessarily accepted.

LORNE PROUDFOOT,
Secretary,
Chinook, Alta.

Notice to Creditors

In the Surrogate Court of the
Judicial District of
Wynyard

In the Estate of Robert Thomson,
late of Guernsey, in the Province
of Saskatchewan, Merchant, de-
ceased.

PURSUANT to the Surrogate
Court Act, being Chapter 54 of
the Revised Statutes of Saskatchewan
and Amending Acts.

NOTICE IS HEREBY GIVEN
that all persons having claims against
the estate of Robert Thomson, late
of Guernsey, in the Province
of Saskatchewan, who died on or about
the 18th day of March, A.D. 1916,
are, on or before the

28th day of June, A.D. 1916

required to deliver or send by post
prepaid to the Standard Trusts Com-
pany, Saskatoon, Saskatchewan, Ad-
ministrator of the said estate, full
particulars of their claims duly
verified by Statutory Declaration,
together with a statement of securities
if any, held by them.

AND TAKE NOTICE that after
the said mentioned date the Adminis-
trator will proceed to distribute the
assets of the Estate amongst the
parties entitled thereto, having re-
gard only to the claims of which it
shall then have notice, and the said
Administrator will not be liable for
the said assets or any part thereof to
any person or persons of whose claim
it shall not have had notice at the
time of such distribution.

Dated at Saskatoon, Saskatchewan,
this 25th day of May, A.D. 1916.

The Standard Trusts Company,

Administrator of the said Estate
